

Business Planning Checklist

You and your employees are the backbone of your business. If something happened to you, or one of them unexpectedly, would you or those left in charge have access to all your critical programs and systems? Today's digital world makes our processes and services so much faster, however, many times those access points are held by only one person. We've created this checklist to help you think through what systems would need to be accessed in the event a key employee was suddenly gone or if a natural disaster shook your organization.

Financial Accounts	Program, System or Website Name	Location, Login or Access Information	Notes
<ul style="list-style-type: none"> • Accounting Systems (QuickBooks, Proprietary) • AP/ AR tracking/programs • Vendor tracking / information • Merchant and payment processing systems • Banking logins • Credit card logins, reconciliations • Sales reports/tracking, compensation, disbursements • Budgeting systems, reports 			
Payroll /HR	Program, System or Website Name	Location, Login or Access Information	Notes
<ul style="list-style-type: none"> • Payroll processing system or company • HRIS system • Employee records • Leave tracking (FMLA, PTO, paid leave, unpaid leave, sick time, vacation accruals etc.) • Time and attendance systems • Online benefits tracking and enrollment systems • Tax and wage reports 			

Business Planning Checklist
