Digital Storage for What is Most Important to You

Empower your family with seamless access to vital information whenever they need it. Ensure your life's essential documents are fully safeguarded, providing complete peace of mind in times of emergencies.

This cutting-edge solution safeguards your active life and helps protect your legacy to provide you peace of mind. With this platform, you can securely store vital documents, passwords, and even end-of-life plans, accessible round the clock in case of any emergency. We make it effortless for you to share essential information concerning finances, insurance, wills, and funeral wishes with your cherished family and loved ones. Embrace the power of digital security and preserve all that truly matters, now and for the future.

Craft a comprehensive end-of-life plan with guidance at every stage.

The Ability to Have an Account Co-Owner

Want to share an account with your spouse, partner, or family member? You have the option of co-managing a joint account with dedicated information about each of you.

Flexible Access for Your Authorized Users

Give loved ones access to your plan on your terms. Limit what sections specific authorized users see and what they can edit.

Unlimited Digital Document Uploads

Upload copies of important documents so your loved ones never have to search for the files they need. Store tax records, bank statements, titles, insurance policies, wills, marriage licenses, birth certificates, military service records, personal notes, and more. (Files up to 40MB each).

A Secure, Encrypted Account You Can Trust

Your privacy is the top priority. Store and share your records and wishes with the confidence of industry-leading security features.

Never stress over details or documents again

Secure storage. Convenient access. Extra peace of mind.

If something happened today, how quickly can you (or loved ones) find all the details you keep in your head, or stored in various “safe places”:

- banking information,
- online accounts and logins,
- auto-pay records,
- insurance policies,
- investment records...

Not to mention important documents like **wills, trusts, deeds, titles** and many more.

Even if you’re super organized, is your critical information protected from theft or disasters? Because while all these things need to be secure, **they ALSO need to be accessible to you or loved ones *quickly and easily!***

My Life & Wishes offers the kind of peace of mind that's hard to match! You'll sleep easier knowing you don't need to worry about misplaced information, or loss of critical documents in fires, floods or other disasters or emergencies.

And you'll know this will be a true stress reliever for your loved ones at one of the most difficult times in their lives. My Life & Wishes provides:

- **Document Protection:** for important legal and financial papers
- **Secure Accessibility:** for information and records needed to access accounts including logins, passwords, and other codes
- **Convenient Reference:** for medical instructions, funeral preferences, how you want your pets cared for in case something happens to you, and more
- **24/7 Access:** with cloud-based storage, so you can make updates whenever and wherever you want to
- **Users You Specify:** add designated users (e.g., spouse, children, attorney) so they can get what they need, wherever they are
- **Unmatched Security:** Top-level AES 256 encryption (that's military grade)

LEGACY VAULT, POWERED BY MY LIFE & WISHES, PROVIDES:

- Military-grade security (AES 256 encryption)
- Ability to add users with specific “levels” of access (spouse, children, partners, attorney, etc.)
- Control over editing/updating personal notes, accounts, and users
- Ability to scan and upload documents
- A safe place for account numbers and login credentials
- A one stop location for noting your social media handles and passwords
- Fields to add notes on miscellaneous items or records
- A back-up resource in the event of natural disasters
- A helpful spot for details on your subscriptions and auto-pay bills that others may not know
- Peace of mind for you and your loved ones no matter the distance or time
